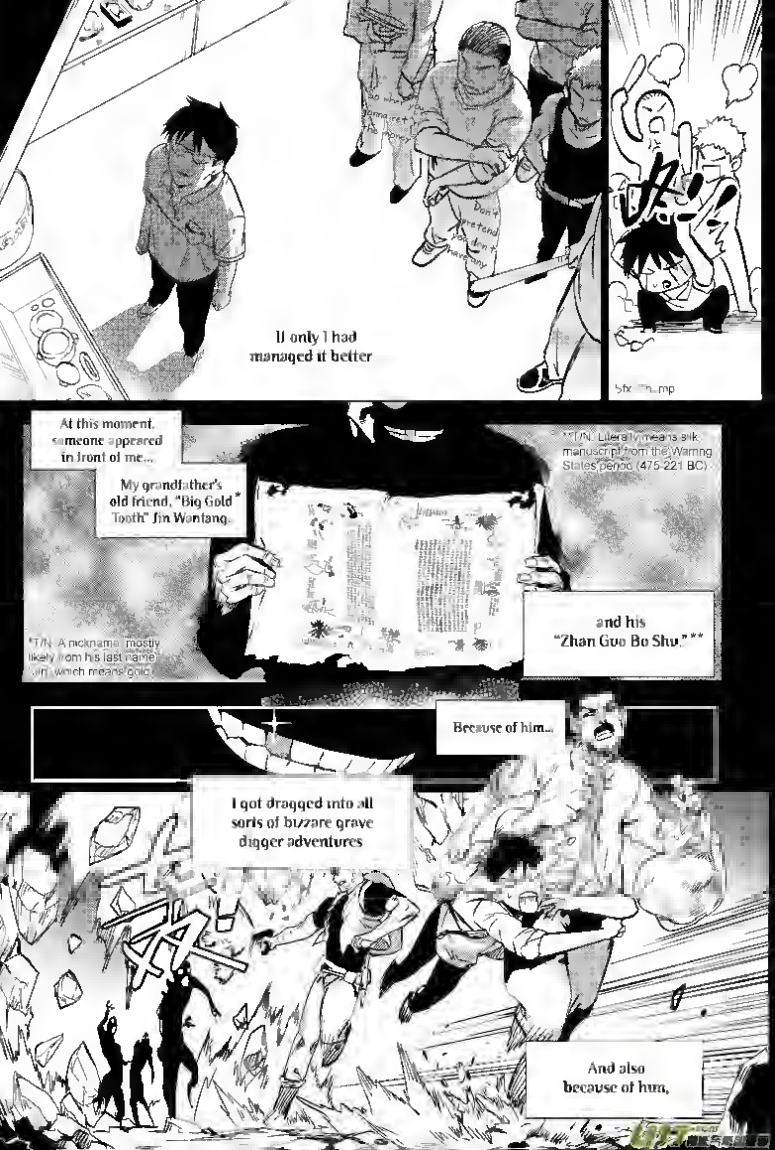
This is another story about my search for "his" clues following my returned to China.
But,
At this point I did not yet realize,
I was about to face an incredible mystery and unimaginable "truth"

Fate
Cycle
2

Wu Xie, do you believe in "fate"?
I did not think...
That I can really die...
I never believed in
those illusionary things

I was born into a family of tomb robbers.
My grandfather was a famous tomb robber.
Don't know what he had encountered, but he made a strange will before passing away.
After my death, my remains must be cremated within two hours,
No one is allowed within 30 meters of the oven,
neither is anyone allowed to peak inside.
After my grandfather died, I came into possession of his antique shop...
Grandfather, I will work hard!



If only I had managed it better
At this moment, someone appeared in front of me...
My grandfather's old friend, "Big Gold Tooth" Jin Wantang.
*T/N: A nickname, mostly likely from his last name Jin, which means gold.
**T/N: Literally means silk manuscript from the Warring States period (475-221 BC).
and his "Zhan Guo Bo Shu."**
Because of him...
I got dragged into all sorts of bizzare grave digger adventures
And also because of him,

I met him
Men Youping • Zhang Qiling
T/N: "Men Youping" means someone who doesn't talk a lot.
From that day on,
I started to believe
"fate" must exist...
